Scuola di Dottorato in Scienze della Natura e Tecnologie Innovative

## **Cancer Drug Discovery Workshop**

### **Prof. Klaus Pors**

Senior Lecturer in Chemical Biology  
Institute of Cancer Therapeutics  
University of Bradford

Invited Lecturer inside teaching staff mobility  
Erasmus+ Programme

#### **6th June h 11-13 Aula F C.so Raffaello 33**

Target Validation & Preclinical Investigations of Anticancer Drugs  
Case Study I: Paclitaxel

#### **7th June h 11-13 Aula G C.so Raffaello 33**

R&D - Academia vs Pharmaceutical Industry  
What Does the Future Hold - Drug Discovery 2050

#### **8th June h 11-13 Aula F C.so Raffaello 33**

Case Study II: Discovery of abiraterone targeting CYP17A1 in prostate cancer  
Case Study III: Discovery of novel agents targeting Cytochrome CYP1A1, 1B1 and CYP2W1 in cancer for therapeutic intervention

#### **9th June h 11-13 Aula F C.so Raffaello 33**

Abnormal enzymatic expression in the tumour microenvironment as targets for biomarker and drug discovery.

Prof. Donatella Boschi

DSTF International Mobility Delegate
